Marines In World War II - The Marshalls: Increasing The Tempo [Illustrated Edition] Lieutenant Colonel R.D. Heintz Jr. USMC, Lieutenant Colonel John A. Crown, 2014-08-15 This book tells the story of the Marines spearheading the thrust through the Japanese outer ring of defenses and recounts the brutal and important island-hopping Pacific campaign at its most gripping following the bloodbath at Tarawa. Contains 97 photos and 16 maps and charts. "As 1943 drew to a close, Marines had retaken Tarawa and portions of the Solomons from the Japanese invader, but the formidable enemy bases studding the vast Pacific, bases which had been built during the preceding 25 years, were as yet untouched by our amphibious forces. In early 1944 the first penetration of this prewar enemy territory was accomplished with the assault and occupation of Kwajalein and Majuro Atolls in the Marshall Islands. These were quickly followed by the seizure of Eniwetok Atoll. The major role in these over-all operations was undertaken by Marine units working in close coordination with elements of the Army, Navy, and Coast Guard. That they acquitted themselves with distinction is reflected in the rapidity with which they accomplished their missions. Operations in the Marshall Islands clearly indicated that Japanese bases in the Central Pacific could be by-passed. The way was now open for the neutralization of Truk and the assault on the Marianas, the next great step in the drive toward Japan."-LEMUEL C. SHEPHERD, JR., GENERAL, U. S. MARINE CORPS, COMMANDANT OF THE MARINE CORPS

Stingray Bruce Norton, 2012-05-01 One of the most influential strategies of the Vietnam War, the Stingray Patrol comprised seven to ten marines in small teams, inserted by chopper deep in enemy territory. Surrounded on all sides by North Vietnamese Army troops and Viet Cong guerillas, these small, high-effective teams brought death and destruction to the enemy without ever going head-to-head in a gunfight with them. Like today's Special Forces, Navy SEALs, Army Rangers, and Marine Force Recon units that operate behind enemy lines, these Stingray Patrols helped target the enemy for artillery and air strikes . . . with devastating accuracy and effect. Force Recon Marine and team leader Bruce Doc Norton participated in many Stingray missions and he takes the reader behind enemy lines, telling the full story of Stingray's origins and operations. STINGRAY is the definitive history of these units and missions, available now for the first time in eBook format.

Victory Fever on Guadalcanal William H. Bartsch, 2014-11-07 Following their rampage through Southeast Asia and the Pacific in the five months after Pearl Harbor, Japanese forces moved into the Solomon Islands, intending to cut off the critical American supply line to Australia. But when they began to construct an airfield on Guadalcanal in July 1942, the Americans captured the almost completed airfield for their own strategic use. The Japanese Army countered by sending to Guadalcanal a reinforced battalion under the command of Col. Kiyonao Ichiki. The attack that followed would prove to be the first of four attempts by the Japanese over six months to retake the airfield, resulting in some of the most vicious fighting of the Pacific War. During the initial battle on the night of August 20-21, 1942, Marines wiped out Ichiki's men, who—imbued with “victory fever”—had expected a quick and easy victory. William H. Bartsch draws on correspondence, interviews, diaries, memoirs, and official war records, including those translated from Japanese sources, to offer an intensely human narrative of the failed attempt to recapture Guadalcanal's vital airfield.
