To this end, it brings together materials collected from all accessible sources; it shows the kinds of armor which each nation used in World War I, their strengths, and weaknesses. This publication approaches then-contemporary armor in a historical context, weighing aesthetic and practical concerns and comparing armor to well-known pieces in the Met's collection.

World War I Infantry in Colour Photographs Laurent Mirouze, 1990 HISTORY-MILITARY/WAR

New Images of Nazi Germany, 2012-10-15 With its battlefields paved over and its bunkers crumbled, the Third Reich of Nazi Germany nevertheless lives on in countless photographs that record an era of extraordinary brutality. This collection of more than 500 photographs taken by amateurs and professional propagandists provides a panoramic overview of Nazi Germany, offering intimate glimpses into living rooms and killing grounds, kitchens and concentration camps, movie theaters and battle fronts. The explanatory text explores the context of the images. Together, these photographs, most never before seen, create a time capsule, capturing the faces of Hitler's soldier's as well as those who suffered under the Nazi onslaught

on humanity.

The German Freikorps 1918-23 Carlos Caballero Jurado, 2001-09-25 Osprey's examination of German troops in the post-World War I (1914-1918) period. The troops returning home to Germany after the 1918 Armistice found their country riven by internal unrest, and its eastern borders threatened. Though reluctant to support the new Republic, the many Free Corps formed by ex-Imperial soldiers fought furiously against Communist revolutionaries at home and Polish and Bolshevik Russian pressure on the frontiers. Later providing much of the manpower for the new Reichswehr, the Free Corps would have strong links with the nascent Nazi Party. This concise account of a little-known but central episode in the history of 20th century Germany is illustrated with rare photographs, and ten colour plates showing unprecedented details of uniforms and insignia.

The German Police Counter Intelligence Sub-Division Allied Forces, Shaef, 2003-05-01 The German Police study made by SHAEF and other more clandestine agencies shows clearly why the German Police was so different to their British and American counterparts. German Police covers the history of the German Police and particularly Himmler's involvement in initially the Gestapo and later with the secret organisations which were all included in the general term Police. This detailed study examines Himmler's acolytes, the Higher SS Police Commanders, and the ever present SS involvement in internal security matters in the Third Reich. It also gives details of the regular police, as well as the more sinister Security Police (SiPo) and the Security Service (SD). Gestapo and Kripo are included. The volume is also important in that it contains nine uniform colour plates, sixteen black and white photographs and a very important colour section on official papers - identity documents for the regular police, the SS (including the SS pay book), the fire service and the Hitler Youth fire service, the SiPo, the SD, the Gestapo, the German standard ID card, Racial German ID cards and other important ID documents.

Designing the T-34 Peter Samsonov, 2019-12-27 When the German army launched Operation Barbarossa - the invasion of the Soviet Union - on June 22, 1941, it was expecting to face and easily defeat outdated and obsolete tanks and for the most part it did, but it also received a nasty shock when it came up against the T-34. With its powerful gun and sloped armour, the T-34 was more than a match for the best German tanks at that time and the Germans regarded it with awe. German Field Marshal von Kleist, who commanded the latter stages of Barbarossa, called it 'the finest tank in the world'. Using original wartime documents author and historian Peter Samsonov, creator of the Tank Archives blog, explains how the Soviets came to develop what was arguably the war's most revolutionary tank design.

The M-1 Helmet Mark A. Reynosa, 1996 This new book presents over seven years of research into the history of the M-1 helmet during World War II, and provides the most comprehensive examination of its development and production. All aspects of M-1 helmet production are covered including: the helmet body, the fiber liner, the plastic liner, the parachutist helmet, helmet camouflage, helmet modifications, helmet paint schemes, and toy helmets. Every production helmet version is

presented in full color photographs, including detail shots and production markings. Also included are World War II era photographs of the helmet samples, helmet production, and helmets worn in training or in action. This book a valuable reference to both historians and collectors.

Denying History Michael Shermer,Alex Grobman,2023-11-10 Denying History takes a bold and in-depth look at those who say the Holocaust never happened and explores the motivations behind such claims. While most commentators have dismissed the Holocaust deniers as antisemitic neo-Nazi thugs who do not deserve a response, historians Michael Shermer and Alex Grobman have immersed themselves in the minds and culture of these Holocaust revisionists. In the process, they show how we can be certain that the Holocaust happened and, for that matter, how we can confirm any historical event. This edition is expanded with a new chapter and epilogue examining current, shockingly mainstream revisionism.

German Uniforms of the Third Reich, 1933-1945 Brian Leigh Davis,Pierre Turner,1997 During the Third Reich, almost every German wore a uniform, whether military or civil. Nearly 250 of the most important ones appear here, modeled by their most typical wearers. The paintings -- based on contemporary photographs for accuracy-depict all the primary styles ptive sections explain each uniform's place in the hierarchy, the battle roles of the wearer, and a fascinating range of detail.

Germany 1918 - 1945 K. J. Mason,Tony Taylor,2014 GERMANY 1918-1948 has been developed especially for senior secondary students of History and is part of the Nelson Modern History series. Each book in the series is based on the understanding that History is an interpretive study of the past by which you also come to better appreciate the making of the modern world. The Stahlhelm (steel helmet) was introduced to the German Army in early 1916 as a protective helmet. Replacing earlier cloth and leather headgear such as the Pickelhaube, the Stahlhelm has become a potent symbol of German militarism in the first half of the 20th century. During the 1920s the right-wing veteran's organisation, Der Stahlhelm, Bund der Frontsoldaten, which became the paramilitary wing of the German National People's Party and was later absorbed into the SA, used the helmet as both its name and symbol. With the establishment of the Third Reich, the Stahlhelm continued to be used by the German Wehrmacht but it was also used by the Schutzstaffel, the SS, as shown here in a photograph taken at the Nuremberg Party rally in 1938. Developing understandings of the past and present in senior History extends on the skills you learnt in earlier years. As senior students you will use historical skills, including research, evaluation, synthesis, analysis and communication, and the historical concepts, such as evidence, continuity and change, cause and effect, significance, empathy, perspectives and contestability, to understand and interpret societies from the past. The activities and tasks in GERMANY 1918-1948 have been written to ensure that you develop the skills and attributes you need in senior History subjects.

Hitler's Third Reich in 100 Objects Roger Moorhouse,2021-01-06 Hitler's Third Reich is still the focus of numerous articles, books and films: no regime of the twentieth century has prompted such interest or such a body of literature. Collated and presented by one of the world's leading historians of Nazi Germany and illustrated with photographs throughout, this book is an accessible, compelling and often revelatory guide to the Third Reich. Ranging from documents and postcards to weapons and personal effects, these objects include Pervitin, Hitler's Mercedes, Hitler's grooming kit, the Messerschmitt 262, the Luger pistol, the Tiger Tank, Eva Braun's lipstick case, the underpants of Rudolf Hess, and, of course, the Swastika and Mein Kampf.
